WILL GO TO CHARLESTON.

President Says He Will Do So If it Bo Pos-

sible. (By Associated Press.)

WASHINGTON, March 3 .- A delegation of the Charleston Exposition had a conference with Prseident Roosevelt with regard to attending the Exposition. The Celegation strongly urged the President to keep his engagement to visit the Ex-resition, and assured him a most cordial welcome. The President told the delegation that if nothing intervened to prevent he would take great pleasure in visiting Charleston and the Exposition some time in the near future. The party was invited to luncheon with the President. The delegation consisted of Mayor Smyth, Alcermen Rhett and Kellock, representing the city, and President Wagener, Mr. Hemphill and Dr. Gadsden, of the Expession Board

position Board,
After the luncheon it was stated that no date could now be fixed for the visit, but that it would probably take place late in the present month. In a few days Secretary Cortelyou will take up the matter with the Exposition authorities and the railroad officials with a view to se-lecting a date that would be most convenient to all concerned.

STOCK PRICES SHOW RECOVERY

Dealings, However, Are Still on Very Small Scale

AND LARGELY PROFESSIONAL

There Was Reaction at Close, and While the Day's Profits Were Not All Wiped Out They Were Greatly Reduced.

Bonds Firm.

(By Asseciated Press.)

NEW YORK, March 2.—There was some recovery in prices in to-day's stock market, but the dealings were on a very small scale and still restricted to operations by professionals of the smaller class. The professional character of the operations was also revealed by the reaction at the close, when the traders came to take their profits. The day's gains were not all whed out, but they were considerably impaired by this movement. The traders who bought stocks professed a feeling of encouragement over the fact that the cold weather did not extend to the winter wheat belt, now denuded of its snow covering. The significance attached to this shows that crop prospects are now to play a part in the stock market. There was also a vague confidence expressed in the future of the money market, which seems to be encouraged by the unruffled equanimity in that market in face of the forces of depletion of the cash reserves of the banks now at work. The dealers in stocks offer as explanation of their confidence the conviction that some of the heavy loans which have been taken out by syndicates since the first of the year are about to be liquidated and will thus relieve the situation. The public is in the dark as to the identity of the syndicate borrowers and as to the purpose to which the loans were applied. Another ground of the buying of stocks was the showing made by the railrads reporting their net earnings for January, following those already reported on Saturday. Of those reporting to-day the most important was the Union Pacific, which showed an increase of \$72.0617 in gross earnings. Union Pacific itself made but a slight response to this showing, but it was an influence in the firmness of the general market. Little attention was paid to reports of damage and interruption to traffe by floods unless it might be in the neglect of the stocks of the railroads in the regions most affected. The Chicago and Northwestern stocks made notable advances, the common listing to the proposed absorption of other comp

COTTON MARKETS. NEW YORK, March 3.—The cotton market bened steady with prices 1 point lower to 1 int higher, and for a brief period had a very egular movement with the tendency toward lower layel under realizing and bear pressure. It liverpool cables were rather disappoints and port receipts were considerably larger

than on the same day a year age. Rumors that yarns in Learpool were depressed helped to create any of unensiness among holders. But before the end of the first hour the bears hastily retreated before very buillsh spot market statements and splendid trade accounts from every quarter. Europe, Wall Street and Southern buying orders were soon leading the buying demand, but as soon as the market worked higher a local house soon flooded the ring with May buying orders. The latter at once started rumors that Thiladelphia intercests, too, were scrambling for cover, and with a whirl March rose to S.90, May to S.73 and July, to S.72. Very light estimates for to-morrow's Housdon and New Orleans receipts did much to hold the market firm during the late session. Above S.70 for May and July, realizing sales were enormous, but every bale offered was quickly absorbed by thoroughly frightened hears. From time to time during the day New England spinners gought freely, and Wall Street picked up occasional blocks of the July option. Trading was very active throughout, with sentiment at the close buillish on the prospect for smaller receipts during the rest of the week. The close was steady with prices net 76212 points higher. Total sales were estimated at 500,000 bales.

The stock market was rather weak yes time began to tone up, and a number of stocks made substantial gains before the close. There was comparatively little trading in the standard railroad shares,

stocks made substantial gains before the close. There was comparatively little trading in the standard railroad shares, although Southern Pacific was a strong feature, and Southern Railway preferred sold up above \$6. There was a sensational advance in Chicago and Northwestern of nearly five points, and the Colorado and Southern issues were again more active at advancing prices. The first preferred sold at 69½; the second perferred, 28, and the common above 23.

COTTON OIL UP.

Of the Industrials American Cotton Oil seemed to be in the lead. It was very active and went up as high as 38, the highest price it has sold in many a day. The Steel and Iron stocks were also very strong. There was little change in the shares of the United States Steel Corporation, but Tennessee Coal and Iron. Colorado Fuel and Sloss were all higher. The closing bid on Sloss preferred was \$1, and the common sold as high as 33½. The closing quotation was 32 bid; 34 asked.

Not long before the close the whole market weakened, and the close was irregular, although in most cases there was very little change between opening prices and closing bids. No news was received here to indicate why this slump occurred. The brokers are hoping to get their wires to-day.

RAILROAD EARNINGS.

The New York Times says:
Six representative railroad systems made public their January statements of earnings on Saturday. These were St. Paul. Louisville and Nashville, Canadian Pacific, Wabash, Big Four and Chesapeake and Ohio, and the showing made by them is at once gratifying and significant. St. Paul's gross increased \$22,370 and its net \$35,221. Louisville and Nashville's gross increased \$23,119 and its net \$4,735; Canadian Pacific showed a gain in gross of \$57,776 and in net of \$172,255; Wabash gained \$141,224 gross and \$31,359 net; Chesapeake and Ohio's gross showed an increase of \$36,046 in operating expenses. For the month Big Four's total gross earnings were \$1,429,555, and its so-called "operating" expenses \$1,100,052—or exactly 75 per cent. of the gross f

BIG SHIPMENT OF GOLD.

From Three to Five Million to Be Exported Latter Part of Week.

(By Associated Press.) NEW YORK, March 3.—The National City Bank confirms the report that a con-signment of gold, amount not stated, is now on the way to this country from Paris. It will probably be transhipped to

Cuba.

Muller, Schall and Company announce the receipt of one million francs gold from France per steamship La Bretagne, which arrived yesterday. It is intimated that the gold will go to Cuba. It is predicted that from \$2,000,000 to \$5,000,000 gold will leave this port for Europe the latter part of this week.

STATE LAW UPHELD.

Fine Imposed for Dealing in Futures Legal, Decides Supreme Court.

WASHINGTON, D C, March 8.—The United States Supreme Court to-day affirmed the decree of the Supreme Court of the State of Illinois in the case of Atfred G. Booth vs. The State of Illinois, involving the validity of the State statute imposing a fine of from \$10 to statute imposing a fine of from \$10 to come for dealing in futures. The decision for dealing in futures. The decision for dealing in futures are statuted in the residue, whatever that may be at six the residue, whenever \$1,000 for dealing in futures. The decision of the State court upheld the law, and to-daw's opinion sustained that decision. The opinion was handed down by Justice Fuller, and was dissented from by Justices Brewer and Peckham.
